Experience

J.P. Morgan Chase

Wilmington, DE

Software Engineering Intern

January 2020-July 2020

- Created an application using the Angular framework to design a frontend that improved upon the design and functionality of an old application.
- Implemented a REST API using C# and connected it to the Angular frontend.
- Collaborated in a Scrum team and used strong problem-solving skills when facing challenges and working with unfamiliar software.
- Learned how to adapt to working in different environments by working from home for several months.

Education

Zip Code / Wilmington University

New Castle, DE

Software Development Training Partnered with Zip Code

August 2019-July 2020

- Zip Code training teaches skills such as Java and Object-Oriented Programming, Front-end and Back-end development, and how to use frameworks such as Angular and Spring.
- Earned 21 college credits towards a Computer Science degree through Wilmington University courses.
- Completed coursework and gained skills such as Excel for Business, Business Writing, and Professional Skills.
